Forecast for Friday 28 Aug 2020

Weather: A rather cloudy and windy day, with frequent outbreaks of rain. A risk of gales in the morning. Rain will turn heavy and persistent at times, mainly during the morning. Becoming dry by the end of the day and winds will begin to ease. Some brighter spells possible toward dusk. Clear skies overnight but remaining breezy.

Chance of cloud free mountain/hill tops above 600m: 20% through the morning, with widespread cloud at 500m, increasing to 60% by late afternoon, and greater than 90% by evening.

Visibility: Moderate views through the morning, but much reduced in any rain, and on the tops with widespread cloud. This improving markedly from late afternoon onward, with excellent visibility of distant hills into the evening.
